Stress Test 1

Duration: 25 minutes

Develop a page with the following components:

- The **entire page** is <u>center aligned</u>
- The template contains **Bootstrap** & **Tailwind CDN**, use the one that you need.
- A **3-column** table of 11 countries in the Southeast Asia region
- Retrieve the data of 11 countries from the following API:
  - https://restcountries.com/v3.1/subregion/South-Eastern Asia
- Show each country as a cell in the table with the below data:
  - **Country flag image**
  - **Country name,** <u>center aligned</u>
  - **Population**, formatted with **decimal separator**
  - **Capital name**
  - **Population and Capital Name labels** are <u>tab-aligned</u>

The expected design on the screen is as follows:
